

# Internalize

## Galactic Cowboys

More and more you're lookin' in  
Play the game and never win

More and more I push inside  
The negative and let it slide away

All the pain I fear in life becoming petrified  
I internalize (internalize)

More and more I feel the hand  
Helping me to understand

More and more I wage a war  
Fighting in the very core of me

All the pain I fear in life become petrified  
I internalize (internalize)  
Locked away and try to hide, never more the wise  
I internalize (internalize)

Sorrow needs a place to go  
See the me you'll never know

All the pain I fear in life become petrified  
I internalize (internalize)  
Locked away and try to hide, never more the wise  
I internalize (internalize)
