

Point Of Break

Galactic Industry

You say, I can't help I am
Pleased to massage your brains
Oh you say, I am taller than
The others because I'm the chief

Maybe in vain we hope
Very good idea
Will occure to you
Maybe in vain we hope
In this great point of break
When you will get out at last

I will pray
For all to comprehend
You are only an alien!
I will pray
For all to comprehend
You are only an alien!

You say, I'm the one who is
To lead this nation now
Oh you say, I must be spineless
Because the first takes all

We are wistfully waiting
For the best decision
In your very stupid life
We are wistfully waiting
For this great point of break
When you will get out at last

I will pray
For all to comprehend
You are only an alien!
I will pray
For all to comprehend
You are only an alien!

I will pray
For all to comprehend
You are only an alien!
I will pray
For all to comprehend
You are only an alien!
