

Remake

Galactic Industry

I look to your eyes
You seem to be old
but your age is not high
something is wrong
I know where's (the) mistake
but it's hard to say
your life is so rotten

You cannot go
through the usual door
You can not breath
smoke is your friend
I know where's (the) mistake
but it's hard to say
your life is so rotten

I have a good reason
to make you happy

Time is our crime
you don't feel fine
your time is over
next life is your chance

You say it's my choice
(but) you're tragically mistaken
you are a parasite
of our society
Do you know where's (the) mistake?
you must still say:
my life is so rotten
I'd like to predict you
sweet life in heaven
but you can await
only sweat and blood
Do you know where's the mistake?
you must still say:
my life is so rotten

I have a good reason
to make you happy

Time is our crime
you don't feel fine
your time is over
next life is your chance
