

There's No Way

Galactic Industry

Transparence of mind
brings misery
and pain
Be a silent animal
maybe you will survive
You are a link of chain
powerless and needful
slight part of this
human disgust

We really know
there's no way
out from here
No way
to raze society
we have to stay here

You can't change anything
you're just a slave
of genes
We'll be moving on
our routes for ever
Eternal groping
brings misery and pain
None of us will ever
change the law

We really know
there's no way
out from here
No way
to raze society
we have to stay here
