

# Lady Messiah

Galahad

See the lady there  
With flowing golden hair  
She is the one who knows  
She is the one who cares  
Look up to the sky and beyond the sun  
For it is there from where  
She chose to come, come come

See the clothes she wears  
Of silk and satin fayre  
All as pure as  
The intention that she bears  
To save our hearts and minds  
From such as our kind  
Thus to lead us to  
Fields of pastures new

To end the suffering  
And pain and misery  
To alter all our thoughts  
And the course of history  
And then the sun may shine  
As one to us  
Then disguised as two  
We all turn to dust

Dust, dust, dust

And if we should heed  
And listen closely to  
This voice from far away

From far beyond the sun

From a land that once was  
A reflection of ours now  
But is also no more  
But an image of our future times

So we must take this as a warning  
We must listen and understand  
Because the world won't last forever  
The glass is running out of sand

So we must try  
We must pull together  
As one, see reason  
The lady speaks (she speaks)  
With a truthful tongue  
We must listen and act upon  
This message of salvation  
Our salvation

So we must try and pull together  
As one and see reason  
The lady speaks a truthful tongue  
So we must listen and set upon

This message of salvation  
No need for devastation
