

Circles

Galantis

You look like you're having fun

I'm trying to tell you something
But I don't know what to say
You might already know it
I can't get it into words anyway

Just tell me how you feel, however that is
I can take it, I can take it
I can take it, I can take

I'm living in circles
Sleepwalking through my days
It maybe makes me nervous
I really need a change

(Hey, hey)
Circles, circles
(Hey, hey)

I swear I'm not a villain
But I want it all to end
'Cause you've been staying silent
And now I gotta beg

I'm not as bulletproof as I once was
I got a lot to do, I can't get done
Yeah I'm living in circles
I can take it, I can take it
I can take it, I can take

I'm living in circles
Sleepwalking through my days
It maybe makes me nervous
I really need a change

Yeah, I'm living in circles
Sleepwalking through my days
It maybe makes me nervous
I really need a change

Just tell me how you feel, however that is
Just tell me how you feel, however that is
Yeah, I'm living in circles
I can take it, I can take it
I can take it, I can take
