

Dust

Galantis

My love
We were diamonds, now we're dust (Now we're dust)
Our love
Didn't last but nothing does, we're dust
There was once a time
When the world would stop for us
When you used to have my love
We were diamonds, now we're dust
We're dust

Dust
Now we're dust
Dust
Now we're dust

Tragic
We were built to fall
There's a sweetness
Then it's gone

I love you like X's and O's
Now I'm just in debt to a ghost
Such a hard pill to swallow
Pill to swallow, -wallow, -wallow

My love
We were diamonds, now we're dust (Now we're dust)
Our love
Didn't last but nothing does, we're dust
There was once a time
When the world would stop for us
When you used to have my love
We were diamonds, now we're dust—
We're dust

There was once a time
When the world would stop for us—
When you used to have my love
We were diamonds, now we're dust
We're dust

I love you like X's and O's
Now I'm just in debt to a ghost
