

Hurricane

Galantis

[Verse 1]

I used to think we were different, but we're just the same
Both so broken and conceited, we will never change
You saw through me when you looked into my shattered soul
Pin me down and told me that I was vulnerable

[Pre-Chorus]

And when I turned my back, you saw an open door
And when I gave you breath, you turned it into storm

[Chorus]

(Woo) You know you hit me like a hurricane
Since you hit me I won't love again
(Woo) A force of nature that can't be tamed
You know you hit me like a hurricane
(Woo, hey, woo)
You know you hit me like a hurricane
Since you hit me I won't love again

[Verse 2]

I keep on searching through the wreckage, all I find is pain (E
h, eh, eh, eh, eh, eh)
Only thoughts of you and I are what still remain (Eh, eh, eh, e
h, eh, eh)
Yeah, I'll take the blame, but I know that you were wrong
'Cause if I give you breath, you turn it into storm, eh

[Chorus]

(Woo) You know you hit me like a hurricane
Since you hit me I won't love again (Woo)
A force of nature that can't be tamed
You know you hit me like hurricane

[Pre-Chorus]

Oh, I fear to break away from your heart
'Cause every time I tried, you hit me so hard

[Chorus]

You know you hit me like a hurricane (Woo, hey)
(Woo) You know you hit me like a hurricane (Hey)
Since you hit me I won't love again
