

Only A Fool

Galantis

There's some things about you I know I don't like
But I can't stand not having you right by my side
I would trade eternity for just tonight
You might be crazy, but at least, I know you're mine

Just say that you feel the same
I'll show you what I really mean, yeah
'Cause even when you're afraid
I could be your remedy

Only a fool would turn down your kiss
'Cause, girl, you got magic all in your lips
I'm so for real, this is not for play
Girl, just one touch and I'm not the same

Only a fool
Only a fool
Only a fool
Only a fool would let you go

Just say that you feel the same
I'll show you what I really mean, yeah
'Cause even when you're afraid
I will be your remedy

'Cause only a fool would turn your kiss
'Cause, girl, you got magic all in your lips
I'm so for real, this is not for play
Girl, just one touch and I'm not the same

Only a fool
Only a fool
Only a fool
Only a fool would let you go

Only a fool
Only a fool would let you go
Only a fool
Only a fool would let you go

Only a fool would let you go
Only a fool would let you go
