

San Francisco

Galantis

I met you in a bar in San Francisco
Said you used to have a car before the repo
Smokin' lucky cigarettes, I think the smoke went to my head
And now that summer night plays on repeat
We climbed the Golden Gate Bridge just to watch the stars collide
And played that Stevie Wonder song a couple thousand times
I'm kinda scared to say it was the best night of my life
But I know I won't forget San Francisco
No, I know I won't forget, I know I won't forget
I know I won't forget that night in San Francisco
In San Francisco
In San Francisco
I met you in a bar in San Francisco
But when the sun came out, we had to let go
When you took that Greyhound bus, thought it was the end of us
But now you're all I dream of when I sleep
We climbed the Golden Gate Bridge just to watch the stars collide
And played that Stevie Wonder song a couple thousand times
I'm kinda scared to say it was the best night of my life
But I know I won't forget San Francisco
No, I know I won't forget, I know I won't forget
I know I won't forget that night in San Francisco
In San Francisco
In San Fran
In San Francisco
In San Fran
In San Fran
In San Francisco
