

Relapse.

Gallant

I see war in those eyes
A final desperation
To keep your inhibitions close to you
But seconds after midnight (Yeah)
And reckless bouts of indecision
You gave up on that mission
And welcomed back the addiction, yeah

Said you wouldn't bite (Yeah, yeah)
But if it feels right (Yeah, yeah)
Swallow that pride (Yeah, yeah)
And let me inside
'Cause when I touch you like that (Like that)
It's enough to make you wanna relapse (Relapse)
Twenty thousand leagues when you say, "Deeper than that" (Than that)
Can't hide it, I'll tell your secret so fast (So fast)
So fast

I see Saturn's moon rising
It's pulling on your conviction
But tame your superstition
There's nothing to prove here
People telling you lies
'Cause the truth's in what you know you're feeling
So, girl, don't blame your position
Blame the human condition (Yeah, yeah)

Said you wouldn't bite (Yeah, yeah)
But if it feels right (Yeah, yeah)
Swallow that pride (Yeah)
And let me inside
'Cause when I touch you like that (Like that)
It's enough to make you wanna relapse (Relapse)
Twenty thousand leagues when you say, "Deeper than that" (Than that)
Can't hide it, I'll tell your secret so fast (So fast)
So fast
