

This World

Gallant

This world is so cold without you
Never make it through without you

I believe in that
I can feel you here

Toss and turn, I'm strong but weakened
Wide awake, my thoughts have secrets

I believe you love
I believe you love
I believe you love
I believe you love

So I won't give up
No, I won't give up

Even through my soul that's shakin'
Even through my heart that's breakin'
I believe that love is strange
Don't you know I feel the same things

Numb inside but pain still cuts through
Pins and needle flashes of you

I believe in hope
Even know the ropes
Yes, I believe in us
I believe you love

Even through my soul that's shakin'
Even through my heart that's breakin'
I believe that love is strange
Don't you know I feel the same things

I believe you love
Oh, I believe you love
I believe you love
Oh, I believe you love
