

Denim Demon

Gallows

I tried to be part of the scene
Bought all the records and magazines
But all the kids they put me down
Laughed and said I was a clown
They didn't want me around
Made me feel so all alone

Now I'm back with a bang
I've got my own leather gang
And all of them are men
And denim's back again

And I am, and I am
I am a denim demon
Got my own congregation
I am a saint for seamen
And I am, and I am
I am a denim demon
You've got my penis steaming
And your asshole screaming: help!

The day is black, the night is white
The disco sun it shines so bright
Protruding buttocks left and right
I draw my sword prepared for fight
The stench of piss reveals your fright
Your asshole is in for a ride

Now I'm back with a bang
I've got my own leather gang
And all of them are men
And denim's back again

And I am, and I am
I am a denim demon
Got my own congregation
I am a saint for seamen
And I am, and I am
I am a denim demon
I've got my penis steaming
And your asshole screaming: help!

Outside of society
Good head! Good head!
Outside
