

# Braving Flag

Galneryus

Flight of the braving heart  
I'm a prayer of the steel  
I don't fear the reality of the dark world

The heat is filling my heart  
And I never stop again  
Can't you hear cry of the world  
Find out your way

Falling down to the burning hell  
No one knows why struggle is never end  
Now I hope you will never shrink again  
I just feel the fire is still burning

When I met you, I was so blue  
The fever just fills my body  
We are under Braving Flag  
You fly through the sky  
It's glorious  
I wish you the best of luck

The wish will don't ever end  
Even if the world ends  
The flag is always by your side  
Go ahead

Falling down to the burning hell  
No one knows why struggle is never end  
Now I hope you will never shrink again  
I just feel the fire is still burning

When I met you, I was so blue  
The fever just fills my body  
We are under Braving Flag  
You fly through the sky  
It's glorious  
I wish you the best of luck

When I met you, I was so blue  
The fever just fills my body  
We are under Braving Flag  
You fly through the sky  
It's glorious  
I wish you the best of luck

When I met you, I was so blue  
The fever just fills my body  
We are under Braving Flag  
You fly through the sky  
It's glorious  
I wish you the best of luck
