

## Judo Killer

Gama Bomb

See my talons  
I'm a stone cold killer with artist's heart  
Preserve the balance  
Lethal styles of clandestine arts  
Scrolls and drills and heavy chores  
I can't unlearn the way to kill and I know  
Forbidden forms  
I'm back from death and here to raise the score  
There's a ghost within my sword

You didn't have the discipline to take me down  
Now a year to the day  
I'm coming back to town

Stand up and fight me  
I'm lethal and deadly  
Dealing all foes against me  
A hand in the game of death

I'm an infiltrator  
With savage beatings to the unaware  
So deadly secret  
I'll carve my sign but you don't wanna know where  
Hannya mask  
Live to kill and fight for the Shogunate  
Neon sword  
A blade for hire if you just say the word  
I'm a fire that burns the world

You killed my father now prepare to die  
I'm your long lost brother with a tiger's eye
