

## Reveal the Shrieking Skull

Gama Bomb

A warning to curious ignored  
The hand of fate has led you to this place  
When it's after dark, at midnight sharp  
No priest can see what happens to thee  
In the catacombs, you're all alone  
They'll grab your bones and carry you before the throne

You penetrated the venerated sanctum of a secret league  
Where everyone's on drugs and dancing to the Hackers OST

It's real! It's real!  
The ritual's begun  
Beneath the steel  
Reveal the shrieking!  
You've asked for this a million times, now you'll be paid in full  
Reveal! Reveal!  
Reveal the shrieking skull!

Your foolish urge to peer into the dark  
The stroke of twelve brings the acolytes to the crypt  
In hooded garb, with upraised arms  
They chant and cry, 'The skull's alive!'  
But it cannot be, you won't believe  
Your very eyes and ears when it begins to scream

The ritual is underway and soon you'll know insanity  
We're people against goodness and normalcy!

It's real! It's real!  
The ritual's begun  
Beneath the steel  
Reveal the shrieking  
Reveal the shrieking skull!

It's real! It's real!  
The ritual's begun  
Beneath the steel  
Reveal the shrieking!  
You've asked for this a million times, now you'll be paid in full  
Reveal! Reveal!  
Reveal the shrieking skull!  
It goes up!
