

Changes

Gamma Ray

I need a new direction
Another thought to serve me right
My mind has got an infection
And there's nothing that seems to help
I need to grow an island somewhere inside my head
Where nothing can disturb me,
Where I am free, where I'm forever set

Maybe it's not important
If we are dead or alive.
I never ever wanna listen to the sirens
I'm alive, still alive.

Who says: "We are not guilty"
I say: "We never know the way it goes"

Changes - all around me, all inside my head
Changes - changing face, still remaining mad.
Changes - an all day routine.

Hard to enjoy the good times,
Decay is what I feel
God, it's makin' me porous, vanish in haze,
I wonder, wonder if I'm real.

Newflash - under the new regulations
Non-conformity will be punished by law.
Relax - and don't forget to unplug your TV set!
Sigh no more!

For you, you are not guilty,
No, no, you're not responsible at all.

Changes - all around me, all inside my head
Changes - changing face, still remaining mad.
Changes - an all day routine.
Changes - all around me, all inside my head
Changes - changing face, still remaining mad.
Changes - changing systems, still insane.
Changes - but the madness will remain.

Who is the man who says I'm never gonna die?
It's a lie, it's a lie!
And who is the man who says, I never have to sigh?
It's a lie, it's a lie!

Oppression, resistance
We will never change our way,
The island in my mind is growin'
More and more, day after day.

Changes - all around me now, all inside me now
Changes - wanna cry no more, sigh no more.
