

## Into The Storm

Gamma Ray

You try to force me on my knees  
Until you reach the point of no return  
You can't change me, 'cause I am free  
Let me out now, I've got some fuel here to burn  
In the land of the free, they're calling out for me  
I'm riding on the wind, I'm on my way  
Into the storm, Into the storm  
Now I am riding on forever  
and I don't know where I will go  
And every storm I'm running after  
will take me further on I know  
A land of the free is calling out for me  
I'm riding on the wind, I'm on my way  
Into the storm, Into the storm  
Get out of my way!  
A land of the free, made for you and me  
We're riding on together on our way  
Into the storm, into the storm  
I'm riding on into the storm
