

## Short as Hell

Gamma Ray

So now we talk about destruction,  
A human race that's left to die  
Nobody ever will believe it  
Until we face it eye to eye  
Let's talk about hell  
Our future shines in darkest colours,  
You'll never change it, never will  
Ain't nothing left now to believe in  
And so we face the overkill  
Hey mother mercy leave me be  
Do you expect me now to cry  
Time will wait for noone  
Time is short as hell  
Time, Time, Time, is short as hell  
All is lost, into the underworld we fade  
until our life is gone  
count the cost,  
then from the darkness wiped away  
into the underworld we fade  
where darkness awaits  
Time will wait for noone  
Time is short as hell, hell, hell  
Time...
