# Watcher in the Sky

**Gamma Ray**

I'm watching the mountains I'm watching the sea
Observing the creatures I am lost – set me free

Across the heavens I made my way
I've seen empires rise and blown away
I have arrived at my destiny but after all
there's just emptiness in me

Out in the darkness – I am going mad
Where are the others – there's silence in my head

`Cause I'm a watcher in the sky
I've seen universes die
Out in the cold my systems overload
I am lost in time
Watcher in the sky

I'm trapped in this nightmare
Endless tortures and pain, milleniums have gone by
Uhhh, it drives me insane

Who am I now?
I'm not man – I'm not machine
I gave my life away for the Iron Savior dream

`Cause I'm a watcher in the sky
I've seen universes die
Out in the cold my systems overload
I am lost in time
Watcher in the sky

(Piet) Hooked to the circuits of a lifeless, cold machine
Lost in a world of artificial means
Ripped out of my body
I'll stand the test of time
Am I perpetual? – am I divine?

I'm a watcher in the sky
My soul has drowned in the tears I cannot cry
I'm the watcher the chosen one but I am lost in time
I'm a watcher in the sky I've seen the years go by

I am the chosen one
Out in the cold my systems overload and I am lost in time
Watcher in the sky
Watching the mountains, watching the sea, watching the creatures
You'll never be free
Watcher in the sky
