## **Castle Of The Stars**

Gandalf

I have never been able to move mountains I have never been able to sing nice I could not even draw a picture I failed in everything I tried

I was shattered before I met you You took my hand and made me whole I'm sorry there's not much I can give Except this song, my heart, and my soul

Look at the stars And what they could tell you Look at the sky And try to imagine how high we could fly

I won't ever get invited To the temple of the king I'm poor so there isn't much I can give you Except my dream, a prayer, and a wing
