

Adam and Eve

Garbage

I wanna be with you all of the time
In your place or my place
I can just make do with whatever time you've got
I just wanna talk to you and be together
I hate to say it 'cause it's so cliché
But c'mon over whenever
C'mon over and wear my favourite shirt
We can read the papers together

And I feel it all the time
Like it's natural
But they act like it's a crime
Like it's unnatural
Before Adam, before Eve
Anybody
Before [?]
When we were children

I feel it all the time
Feel it all the time
Feel it all the time
Is it natural?
I feel it all the time
Feel it all the time
Feel it all the time
Is it natural?

A lot of friends think I have lost my mind
But I can't remember ever feeling better
I come on over, we watch our favourite show
You ask if I consider staying over
We climb up to the roof, watch the cars below
So many are the people, but here we are together

And I feel it all the time
But they act like it's a crime
Before Adam, before Eve
Before [?]
When we were children

I feel it all the time
Feel it all the time
Feel it all the time
Is it natural?
I feel it all the time
Feel it all the time
Feel it all the time
Is it natural?

I was young and hungry, I was blue
The year I cut my hair so short I've lost myself, I've lost my hope
I tied a silver penknife to my shoe
I knew you'd soon get scared of me 'cause you were kind and I could break yo
u

I feel it all the time
Feel it all the time

Feel it all the time
Is it natural?
I feel it all the time
Feel it all the time
Feel it all the time
Is it natural?
Feel it all the time
Feel it all the time
Feel it all the time
Is it natural?
Feel it all the time
Feel it all the time
Feel it all the time
Is it natural?

Feel it all the time
Feel it all the time
