Love is pain, pain is love
Love is immortal, love is God
Hope is eternal, eternal life
Halfway in is halfway nice

She tastes like danger, tastes of fun
She tastes like smoke and blackberries
She takes her clothes off, you start to cry
You think you've found a way to change your life

Dress it up, dress you down
You chase anonymous sex
Dress it up, dress you down
You chase anonymous

I'll be your one and only (You chase anonymous)
I'll be your one and only (You chase anonymous)
I'll be your one and only (You chase anonymous)
I'll be your one and only one

Don't tell me your name, I don't want to know (Hmm, ah)
Don't come too close, I don't want you to (Hmm, ah)
Don't take off your mask, don't turn around
And don't touch my face 'cause I don't want you to
Don't tell me your name

Dress it up, dress you down
You chase anonymous sex
Dress it up, dress you down

Don't tell me your name, I don't want to know
