Off balance in our own minds
Off balance in the ways we looked to everybody else
On and on all summer long, we never stood a chance
Sky bright tonight
Live forever always bright tonight

Hey you
You be who you are
You be who you are forever
You be who you are
You, my brightest star across the sky
You're bright tonight

It was right now and then suddenly it's gone
We were both wrong, but here we are, we're right where we belon
g
Off balance in our own lives
Off balance in the ways we looked to everybody else
On and on all summer long, we never stood a chance
Sky bright tonight
Live forever always bright tonight

Hey you
You be who you are
You be who you are forever
You be who you are
You, my brightest star across the sky
You're bright tonight
You're bright tonight
You're bright tonight
You're bright tonight

You shine so bright
