Confidence

Garbage

You're confident
So confident
You're full of it
You're full of shit
But you see

You're confident
So confident
You're full of it
You're full of shit
But you see

The world is full of girls like you
The world is full of girls like you
The world is full of girls like you
The world is full of sluts like you
So you see

We'll believe it
When we see it
We'll believe it
When we see it
