

Driving Lesson

Garbage

Car, car, car
Car, car, car

Let's get behind the wheel
We'll go driving
To the mountains
To the rooftops

We can take it nice and slow
I'll be driving
To the icebergs
To the edges

Car, get in the car
Car, get in the car

Heading to the clouds
Past the buildings
By the harbor
Through the storm

Tear across the page
By the marker
Leave the light on
By the boy's side

Car, get in the car
Car, get in the car

I can make an honest man of you
I can make you clean if you want me to
I can make you go very far
Just take the car

Get in the car
Car, get in the car

Take the car (gotta feel to make it real).
