Searching for fun, where do you go Got your leather boots on What do you know And they're playing garbage on the radio

Enter the dark, you wanna run Enter the night where nobody knows you

Where the boys are and everybody's high
If enough is never enough and
You're down at heart
If the world is BEATING you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then
Come with us

Back to the bar Where the place is slamming All the pretty queens And the sluts are dancing And the conscience of politicians slide

All sweat and lust
And filthy habits
All the wanna-bes
Hoping to sell their package
At the carnival of lonely broken hearts

If enough is never enough and
You're down at heart
If the world is BEATING you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then
Come with us
If enough is never enough and
You're down at heart
If the world is getting you down then
Come with us
Come with us

Come with us Come with us Come with us Come with us
