

Have We Met (The Void)

Garbage

In the dead of the night
You come at my door
You're all dressed in white
And you're callin' me a whore
I don't know who you are
But you look like a god
All skin and bone
A dagger, a bomb

Who the fuck are you?
Do I know your name?

Have we met? Have we met?
I think you've mixed me up with somebody else
But then it dawns on me that you know my name
You spit it at my face again and again

Have we met? Have we met?
I think you've mixed me up with somebody else
But then it dawns on me that you know my name
You spit it at my face again and again

All this way
I've come all this way
Edinburgh to Barcelona, I've come all this way
From Scotland to Spain
I've come all this way
I came here to play
I've come all this way
Now here she is at my door
Have you motherfuckers been seein' each other?
You motherfuckers been seein' each other?

Now I don't want to stay
And I don't want to fight
'Cause everything's wrong
And nothing feels right
The cathedral bells
I can hear them toll
And I start to laugh
To protect myself

Have we met? Have we met?
I think you mixed me up with somebody else
But then it dawns on me that you know my name
You spit it at my face again and again

Have we met? Have we met?
I think you've mixed me up with somebody else
But then it dawns on me that you know my name
You spit it at my face again and again

Have you motherfuckers been seein' each other?
The void, the void, the void
Have you motherfuckers been seein' each other?
The void, the void, the void
Have you motherfuckers been seein' each other?

The void, the void, the void
Have you motherfuckers been seein' each other?
