

Hold

Garbage

The world's on fire
Pull me closer
Hold me tight
Let the light shine through us
Whisper you love me
Wrap your arms around me
Take down my hair, untie my shoes, undress me

I'm going crazy, I'm half out of my mind
I can't believe my ears, believe my eyes
I woke up crying, got the fright of my life
Everything burns until we make this right

Hope don't fail me
Your arms around me
Faith don't shake me
And don't desert me

Hold
Don't let me go
Just hold on tight
For our dear lives

We keep running, running, running
Running, running, running

You call it fear, I call it madness
The monster sleeps, it feeds on sadness
And when it wakes, it terrifies me
No one to love, no one to love me

I'm going crazy, I'm half out of my mind
I can't believe my ears, believe my eyes
I woke up crying, got the fright of my life
Everything burns until we make this right now

Hold
Don't let me go
Just hold on tight
For our dear lives

We keep running, running, running
We keep running, running, running
We keep running, running, running
Running, running, running

I checked the door, I called your Ma
I checked the windows, I called the law
I called the neighbours, I called the cops
I called the papers, I called the dogs off
But there's the space and there's the tear
There's the hole you left here and here
There's not a lot that we can do
Everything ends for you and me

Hold
Don't let me go

Just hold on tight
For our dear lives

Hold
Don't let me go
Just hold on tight
For our dear lives

We keep running, running, running
We keep running, running, running
We keep running, running, running
Running, running, running

We keep running
Running, running, running
Just running, running, running
We keep running, running, running
We keep running, running, running

Hold
