

# Honeybee

## Garbage

You don't even know my name,  
You've got me on a ball and chain,  
When you gonna notice me,  
God, your such a little tease,

When you gonna finally land it on my lips,  
When you gonna give me just a little sip,

Your a honeybee, Honeybee,  
Honeybee, your killing me,

You don't even know my name,  
I guess I ought to be ashamed,  
Going on the way I do,  
Watching you in everything,  
When you gonna give me just a little kick,  
Music in your heart and lying on your lips,

Your a honeybee, honeybee,  
Honeybee, you're killing me,

Its hard to stumble when your on your knees,  
But just like nicotine and it gets complicated,  
You keep on pouring on the gasoline,  
And its the sweetest feeling, oh it gets me, gets me down,

You don't even know my name,  
How am I gonna reign you in,  
Tramping everything you see,  
You don't own everything,

When you gonna give me just a little hit,  
When you gonna give me just a little bit,

Your honeybee, honeybee,  
Oh, honeybee, its killing me,  
Your killing me, honeybee,  
Your killing me, my honeybee,  
Its killing me.
