

# Sleep Together

Garbage

I got you crawling up a mountain  
Hanging round my neck  
I got you twisted round my finger  
Crawling round my legs

The emptiness, the crazyness  
Satisfy this hungriness  
Darling, how would it feel?

If we sleep together  
Will you like me better?  
If we come together  
We'll go down forever  
If we sleep together  
Will I like you better?  
If we come together  
Prove it now or never

Make me a pretty person, make me  
Feel like I belong  
Make me hard and make me happy  
Make me beautiful

The emptiness, the crazyness  
Satisfy this hungriness  
Darling, how would it feel?

If we sleep together  
Will you like me better?  
If we come together  
We'll go down forever  
If we sleep together  
Will I like you better?  
If we come together  
Prove it now or never

(If we sleep together) Nothing satisfies me baby  
(If we sleep together) I wear something pretty baby  
(If we sleep together) Give me what I crave now baby  
(If we sleep together) Save the rest for later baby  
(If we sleep together) You will drive me crazy baby  
(If we sleep together) Save the last for you my baby

If we sleep together

If we sleep together
