

Space Can Come Through Anyone

Garbage

You use and you lose me. No. You're not excused. See
You jumped up on my back but now I'm gonna break free
You're raising my blood faster than a heart attack, mac
If you can change you're mind by what's inside a girl

Watch what you wish for
Watch what you wish for

What are you like?
When you're lost you make no sense
What are you like?
Will you fight 'til nothing's left?

And just like the sun
We burn, we fade, come back again
Just like the sun
Space can come through anyone
Space can come through anyone

Watch what you wish for, darling. Go!

There's nothing else for it. Cut it out 'cause we've had it
Split it down the middle, cut a check and then cash it
Spin a green ball and fill the world with love, jack
If you change your mind by what's inside yourself

Watch what you wish for
Watch what you wish for

What are you like?
When you're lost you make no sense
What are you like?
You'll fight 'til nothing's left

And just like the sun
We burn, we fade, come back again
Just like the sun
Space can come through anyone
Space can come through anyone

Just like the sun
We burn, we fade, come back again
Just like the sun
Space can come through anyone

Just like the sun
We burn, we fade, come back again
Just like the sun
Space can come through anyone
Space can come through anyone

Watch what you wish for
