This City Will Kill You

Garbage

We were young
Out on the scene
Life so loud
And so much fun
And the party boys
In their pretty clothes
Everybody's got it going on
Everybody's got it going on

On the way home
Just to score one
In the daytime
In the downtown
And the lights are shining
And the girls are dancing
All the lights are sparkling
And the drugs are working
This city will kill you
This city will kill you

Everybody is praying that it rains
It's been promised now for days
But the sun is high in the sky again
You go out at night and you nurse your pain

You got to get out
You got to get out
You got to run
Gotta quit this town
You got to get out
You got to get out
You got to run
Gotta quit this town tonight
'Cause this city will kill you

You've got to wake up
And figure things out
You're getting too old
They'll walk over your bones when you're cold
(When you're cold)
This city will kill you

Why was I (Why was I)
The one to survive (The one to survive)
The one who (The one who)
Didn't succumb, who didn't succumb?

Gotta quit this town
You gotta quit this town tonight

You got to get out
You got to get out
You got to run
Gotta quit this town
You got to get out
You got to get out
You got to run

Gotta quit this town tonight
This city will kill you
You gotta quit this town
Got to get out
You gotta quit this town tonight
Got to get out, got to get out, got to get out
Got to get out, got to get out
