

Fall With Me

Gareth Emery

lyrics:

reach out for emptiness
all arms embrace the silence
no trace or consequence
we're fading to the sky

two lines to cross an end
so close we touch the fire
i step the only edge
and fall into your life

chorus:

we're the stars
above the world with arms wide open
it's who we are
and all we're may to be

the night is ours
breathing dawn and i'm awoken
when we fall we're free
so fall with me

so fall with me, fall with me, fall with me

we're the stars
above the world with arms wide open
it's who we are
and all we're may to be

the night is ours
breathing dawn and i'm awoken
when we fall we're free
fall with me

so fall with me, fall with me, fall with me

fall with me
