

Forever & Always

Gareth Emery

Nothing left here in this town
All of life has been shut down
Take the last flight out tonight
Set a course for the moonlight
Say goodnight, city lights
Watch as they fade from sight

I would follow you to the end
Take a bullet again and again

And if we should die tonight
There'd be two more stars in the sky
'Cause I would follow you to the end
Forever and always (Oh, oh, oh, oh)
(Oh, oh, oh, oh) Forever and always
There'd be two more stars in the sky
'Cause I would follow you to the end
Forever and always

And if we should die tonight
There'd be two more stars in the sky
'Cause I would follow you to the end
Forever and always

The empty world we left behind
Is still so lonely in my mind
But touching down on a new day
With breaking waves guiding our way
An ocean bay hideaway telling us that we could stay

I would follow you to the end
Take a bullet again and again

And if we should die tonight
There'd be two more stars in the sky
'Cause I would follow you to the end
Forever and always (Oh, oh, oh, oh)

(Oh, oh, oh, oh) And if we should die tonight
There'd be two more stars in the sky
'Cause I would follow you to the end
Forever and always
