

Lost

Gareth Emery

And there's no smoke without reason
It's a sign there's something wrong
In my lungs there's a poison
I've been breathing in too long
'Cause there's no I
No I in We
And there's no You,
No You in Me
Cause I've been burned
Way beyond the third degree

Cause your words are like gasoline
You pour on the fire
And the bridges you burned
Led to our dreams
It's just another thing that we lost

When the spark turned into a flame
And the flames grew much higher
And my hope, faith, and every last desire
Is just another thing that we lost in the fire

Just another thing that we lost

Just another thing that we lost

Just another thing that we lost

Ashes fall just like snowflakes
That are warm against my skin
You say that we could re-build this
Wouldn't know where to begin

Cause there's no snow
And there's no rain
To hide my tears
To douse these flames
Cause I've been burned
Way beyond the third degree

And 'cause your words are like gasoline
You pour on the fire
And the bridges you burn
led to our dreams
It's just another thing that we lost

When the spark turned into a flame
And the flames grew much higher
And my hope, faith, and every last desire
Is just another thing that we lost in the fire
Is just another thing that we lost in the fire
Is just another thing that we lost in the fire

Is just another thing that we lost in the fire
Is just another thing that we lost
Just another thing that we lost
Just another thing that we lost

Just another thing that we lost
Just another thing that we lost
Just another thing that we lost
