

# Can't Believe It's Over

Gareth Gates

So here I am, head in hands  
Now you've gone, I don't understand  
Said your peace walked out the door  
Said you couldn't stand one second more  
And I can't believe it's over  
I've never been so high  
And I can't believe it's over  
I forever wonder why...

And the stars, they're so cool  
Make me look like a fool  
They're just watching me, watching you..

And finally, you looked at at me  
Said you're all out of sympathy  
You tried your best, got so far  
And in the end, oh you got too far...  
And I can't believe it's over  
I've never been so high  
And I can't believe it's over  
I forever wonder why

And the stars, they're so cool  
Make me look like a fool  
They're just watching me, watching you...

Look up to the stars, look up to the stars  
Look up to the stars...

And the stars, they're so cool,  
Make me look like a fool  
They're just watching me, watching you...  
They're just watching me, watching you...
