

Back For More

Garou

It feels like this thing had just begun
We caught then sun on the rise
Tasted a sweetness yet to come
I saw my life in your eyes

And I can't let it go
Tried to close down the show
If I said that I've moved on
Baby inside I know

I will be waiting here for you
With my heart like an open door
Shouldn't believe it but I do
That you will come back for more

When I see your beauty in the crowd
I wish that I could explain
Just find the words to tell you how
My love is wearing your name

And I can't let you go
Tried to close down the show
If I said that I've moved on
Baby inside I know

I will be waiting here for you
With my heart like an open door
Shouldn't believe it but I do
That you will come back for more

I won't turn out the lights
If you were to stop on by
I'll keep a place in my life
Where dreams never die
I will be waiting...
Shouldn't believe it...

I will be waiting here for you
With my heart like an open door
Shouldn't believe it but I do
That you will come back for more

I will be waiting...
Shouldn't believe it but I do
That you will come back for more
