

I'm trustin' your trust in me  
But it's feelin' heavy  
The time we used to take for us  
Is wasted on this  
Negativity  
I don't think society  
Knows it's make-believe when you  
When you tell me that

It can get bad sometimes  
Thoughts creep around like demons in your mind  
But you can fall asleep with me  
Fall asleep with me  
And it can get bad sometimes  
Lost in the woods, but you know you can find me through  
The cracks of light between the trees  
This is how it feels to be

You don't like these crowded streets  
Wishin' anxiety  
Would let you be alone with me  
Somehow  
Maybe it's meant to be  
Livin' so quietly  
I hope you find some peace  
Inside of yourself

It can get bad sometimes  
Thoughts creep around like demons in your mind  
But you can fall asleep with me  
Fall asleep with me  
And it can get bad sometimes  
Lost in the woods, but you know you can find me through  
The cracks of light between the trees  
This is how it feels to be

This is how it feels to be  
This is how it feels to be  
This is how it feels to be
