

Breathe It In

Garrett Kato

In spite of what you might know
I'm scared of what you don't show me
Took a little too much that night
Said I wish I never felt this free
(Let's go dancing, let's light a fire, let's run for a while)

It's hard to see you fall like this
Watching it all from a birds-eye view
I was only trying, only trying
Just to breathe it in
I was only trying to breathe it in
I was only trying to be there, be there
Be there, be there

And in spite of how I love you
It's not enough for me to forget
And I wanted to explain
Why I always said the same things

I was only trying, I was only trying
To breathe it in
I was only trying to breathe it in
I was only trying to be there, be there
Be there, be there

Breathe it in
I was only trying to breathe it in
I was only trying to be there, be there
Be there, be there

This is all I know
There's a price for everything we take
(Everything we break)
To numb to say
That I'm sorry I got lost
I was only trying, I was only trying to
Breathe it in
I was only trying to breathe it in
I was only trying to be there, be there
Be there, be there

Breathe it in
I was only trying to breathe it in
I was only trying to be there, be there
Be there, be there
