

# I Will

Garrett Kato

When the birds take flight  
When our hearts get tight  
All the time in this world  
Just floats on by, float on by

When I say your name  
When I see your face  
And it takes me away, take me away

Can I be close to you?  
Is it okay if I do?  
Can we just be here still?  
If you say yes, I will, I will

From the highest heights  
To lowest lows  
Where the wind gusts blow  
That's where we'll go

Can I be close to you?  
Is it okay if I do?  
Can we just be here still?  
If you say yes, I will, I will
