

Never Alone

Garrett Kato

Weightless feeling
Holding your hands
We're laughing and crying
Singing in those streets
Oh, I wish it could stay like this
Starlight's over the night we sit right here

Will you stay
Forever here in my arms
Forever just how you are
Know that you will be
Never alone in the dark

Fearless
Regardless
Of obstacles in place
The strength that
You give me
I ain't gonna waste
Birds they sing in the morning
I can still feel you breathing on my chest

Will you stay
Forever here in my arms
Forever just how you are
Know that you will be
Never alone in the dark
