

Nowhere

Garrett Kato

Think of all the things that I'm not
Getting lost on this train of thought
Spin around and wonder why
Is it too fast to realize
Feel like I just wanna stop

I'm not looking for something, somewhere
Take the long way back to nowhere
Doesn't have to be
Always complicated
Knowing you knowing me
Oh that's good enough for me

Take your time I think you forgot
Waiting for your moment to speak
Don't sound like you're lost it
Hold on to your promises
Feeling like I just wanna stop

Everything all the time
(I wanna feel like this)
Everyone all the time
(I wanna feel like this)

I'm not looking for something somewhere
Take the long way back to nowhere
Doesn't have to be
Always complicated
Knowing you knowing me
Oh that's good enough for me

I'm not looking for something somewhere
Take the long way back to nowhere
Doesn't have to be
Always complicated
Knowing you knowing me
Oh that's good enough for me
