

# One And Only

Garrett Kato

I don't want that easy love  
Makes a good man fall apart  
And I don't mind a heavy heart  
That's breaking down from time to time

'Cause it's a little bit hard, a little bit too much  
Covering scars to make you who you are (Oh no)

I'll hold you tight  
When you're feeling lonely  
Know you can cry when times get ugly  
I'll never go and let you down  
No matter what, I'll stick around  
Please know I'll be  
Your one and only

It's not always that sunshine  
But you find it somewhere  
We all know the grass ain't greener  
How it changes colour when you get there

'Cause it's a little bit hard, a little bit too much  
Covering scars to make you who you are (Oh no)

I'll hold you tight  
When you're feeling lonely  
Know you can cry when times get ugly  
I'll never go and let you down  
No matter what I'll stick around  
Please know I'll be  
Your one and only

I can lean on you  
You can lean on me  
I can lean on you  
You can lean on me  
I can lean on you  
You can lean on me

I'll hold you tight  
When you're feeling lonely  
Know you can cry when times get ugly  
I'll never go and let you down  
No matter what I'll stick around  
Please know I'll be  
Your one and only
