

Tail Lights

Garrett Kato

I don't want to talk about it anymore
Waiting for you to walk out that door
I don't want to give up what we're fighting for
Yeah, I should know better, I should get it together
But I'm not that sure
Of how to live with myself

I can see those tail lights burning
You gotta go but I'm hoping to see you here again
Yeah, I'm not my best but I'm trying to make a real run for it
Don't lose hope, it's not over yet
So I'll be the last man standing with you when the world ends

Oh, I don't want to think about it anymore
How long does it take to lose what was before
I don't want to say I'm missing you no more
Yeah, I should know better, I should get it together
But I'm not that sure
How to turn this around

Cause I can see those tail lights burning
You gotta go but I'm hoping to see you here again
Yeah, I'm not my best but I'm trying to make a real run for it
Don't lose hope, it's not over yet
So I'll be the last man standing with you when the world ends
