

# Let's Get Drunk

**Gary Barlow**

There's nothing like company, whisky glass  
Let a little time pass

Can't remember when I saw you last  
But you look like no time has passed  
You say you've had and lost some love  
And life has been so rough  
So come cry upon my shoulder  
All those years ago I told you  
If things ever get too much  
Just call me, get in touch, yeah

I don't ever wanna be that guy  
Who makes promises honestly, then walks on by  
We've known each other for eternity  
So tonight let's raise a glass to you and me

Let's get drunk  
Let's stay out all night  
Let's get a little high  
And blame it on life  
For the sake of old times  
Let's hit the dance floor  
And laugh till it hurts  
Let's break into a church  
Now it can be us  
Until we find love  
Come on, let's get drunk

Hands up, drink up, hands up, drink up  
Mmm mmm

When we said goodbye to yesterday  
How did it feel to walk away?  
Do you carry regret?  
Had time yet to reflect?  
'Cause those times are now our history  
How we survived's a mystery  
Not easy to forget  
Those years in retrospect, yeah

I don't ever wanna be that guy  
You can only remember from our days gone by  
Our friendship is in perpetuity  
So tonight let's say salut to you and me

Let's get drunk, yeah  
Let's stay out all night  
Let's get a little high  
And blame it on life  
For the sake of old times  
Let's hit the dance floor, oh  
And laugh till it hurts  
Let's break into a church  
Now it can be us  
Until we find love  
Come on, let's get drunk

Let's raise our glasses high  
Raise them to the sky  
From this world we say goodbye, bye, bye  
Come on, let's paint the town  
Get lost in the crowd  
Just in time, 'cause the next round's mine

Everyone, hands up  
Everyone, hands up  
Everyone, hands up, yeah  
Everyone, hands up  
Everyone, hands up  
Everyone, hands up, oh

Let's get drunk, yeah  
And stay out all night  
Let's get a little high  
And blame it on life  
For the sake of old times  
Let's hit the dance floor, yeah  
And laugh till it hurts  
Let's break into a church  
Now it can be us  
Until we find love  
Come on, let's get drunk

(Hands up, drink up, hands up, drink up)  
Hands up  
Hands up, drink up  
Hands up, drink up, hands up (Drink up)  
Let's get drunk, oh

Mmm mmm  
Drink up  
Mmm, hands up, drink up, hands up, drink up
