

Out Here Looking

Gary Barlow

Too scared to ask
How much more must I wait for a chance
And how will I know
If the love that I get is on loan

You know what they say
It won't come if you wait
But maybe just give me a sign

'Cause we're all out here looking for love
We're all out here looking for love
Lost, in deep
Too far out at sea
To be seen

What if we passed
On the street would I know how to ask
How to show you my world
It looks better on you
Truth be told

But you know what they say
Take it all day by day
But maybe there's some kind of a sign

'Cause we're all out here looking for love
We're all out here looking for love
Lost, in deep
Too far out at sea
To be seen

We're all out here looking for love
We're all out here looking for love
We're caught in a crowd
Seems no way out
To be found
