

# What Leaving's All About

Gary Barlow

Brighter skies, just in time  
New horizon, start the climb  
To higher ground, one way out  
Not looking down, that's what leaving's all about

Stand back, take time  
Keep what's yours, take what's mine  
Share blame, think change  
Time to start a new page  
Be scared, be prepared  
Be honest, do what's fair  
Stand up, take your bow  
That's what leaving's all about

When love's getting you down  
Making your head spin 'round and 'round, yeah  
When love comes into doubt  
No one wants to watch it play out  
That's what leaving's all about  
New song, new sound  
That's what leaving's all about

Don't live with the hurting  
It's like a cancer  
Don't be living in churches  
That's not the answer  
Retrace your steps, see what's next  
Make up that ground  
That's what leaving's all about

Stand back, take time  
Keep what's yours, take what's mine  
Share blame, think change  
Time to start a new page  
Be scared, be prepared  
Be honest, do what's fair  
Stand up, take your bow  
That's what leaving's all about  
Make up that ground  
That's what leaving's all about

When love's getting you down  
Making your head spin 'round and 'round, yeah  
When love comes into doubt  
No one wants to watch it play out  
That's what leaving's all about  
New song, new sound  
That's what leaving's all about

Brighter skies, just in time  
New horizon, start the climb  
To higher ground, one way out  
Make up that ground  
That's what leaving's all about

Get out, run fast  
Don't look, there's no way back

Pack up and put it in the past  
Yeah, get out, let go  
Get back to where you know  
Take back your crown  
That's what leaving's all about

When love's getting you down  
Making your head spin 'round and 'round, yeah  
When love comes into doubt  
No one wants to watch it play out  
That's what leaving's all about  
New song, new sound  
That's what leaving's all about
