

# Feelin' Like a Million

Gary Clark Jr.

Friday night and I just got paid  
I'm out looking for some trouble  
I know I'm about to spend it all  
You're not looking for a lover

But I got eyes on you baby, don't see no one else  
The way you move, way you move, I can't help myself  
Come on over here, fooling on me one more time  
The way you shake it baby, shake it baby, makes me feel alright

You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
Got me thinking  
You're the one, you're the one  
You're the one girl  
You're the one, you're the one  
You're the one girl  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me (on me)

Friday night and she just got paid  
She done got herself in trouble  
And I done went and spend it all  
But she already had a lover

But I got eyes on you baby, don't see no one else  
The way you move, way you move, I can't help myself  
Come on over here, fooling on me one more time  
The way you shake it baby, shake it baby, makes me feel alright

You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
Got me thinking  
You're the one, you're the one  
You're the one girl  
You're the one, you're the one  
You're the one girl  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
(Remember that)

You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me

Got me thinking  
You're the one, you're the one  
You're the one girl  
You're the one, you're the one  
You're the one girl  
You got me feeling like a million bucks  
Makes me wanna fall in love  
Baby when you pull it on me  
(Remember that)
