

# Funk Witch U

Gary Clark Jr.

All around the world  
All the boys and girls

All I want is for you to catch a groove  
All I want is to see your body move  
Let's get it

We do what we do just to funk with you  
Lift you up, not bring you down  
For the days you think you lose  
We want to come through to hit you 'til you feel the sound  
Listen  
(Listen up)

(This is how we function)  
All around the world  
(This is how we function)  
All the boys and girls  
(This is how we function)  
Just give it a whirl  
(This is how we function)  
We wanna funk with you

All I want is for you to catch a groove  
All I want is to see your body move  
Relax your mind with me  
Take off your clothes (Take off your clothes, yeah)  
Let yourself go baby, get in the mood

When you hold the truth, we come funk with you  
With something simple yet profound  
Every time we groove we just want to move the people from all around  
Listen

(This is how we function)  
All around the world  
(This is how we function)  
All the boys and girls  
(This is how we function)  
Just give it a whirl  
(This is how we function)  
We wanna funk with you

All I want is for you to catch a groove  
All I want is to see your body move  
Relax your mind with me  
Take off your clothes  
Let yourself go baby, get in the mood

(All around the world)  
(All the boys and girls)  
(Just give it a whirl)  
(We wanna funk with you, yeah)  
(All around the world)  
(All the boys and girls)  
(Just give it a whirl)  
('Cause we wanna funk with you)

All I want is for you to catch a groove  
All I want is to see your body move  
Relax your mind with me  
Take off your clothes  
Let yourself go baby, get in the mood
